Code Geass

By: Gwen Goodman

Code Geass is an anime and its first episode was made in 2006 October 5th

The Holy Empire of Britannia conquered the country known as Japan and now called it Area 11. Its residents lost their rights to self-govern and are now called Elevens. The Empire uses powerfully destructive robotic weapons called Knightmares to ensure control, but someone is about to stand up against it. Lelouch, the black prince, has endless ambition and uses the power of the Geass to build a world based on his ideals. Suzaku Kururugi, the white knight, aspires to justice and strives to live an honest and fair life.

I recommend this to people who like Robots and fighting..... And death?..... There's about 25 episodes in the first season and about 25 or more in the second season.

Fairy Tail By: Maryaly Lira

Fairy Tail follows the adventures of Lucy Heartfilia, a teenage wizard who joins the popular wizards' guild and teams up with Natsu Dragneel as he searches for the Dragon Igneel (a powerful wizard). Set in an imaginary world, the Earth Land, there exists a mage guild called "Fairy Tail." Their job is to protect the land from monsters and demons. I recommend this show because it has humor and there is some drama where the characters fight each other.

Anime, among other things, coming soon!

An article written by: Trinity Sampson

Ajin (manga): "Ajin are humans that cannot die. Seventeen years ago, they first appeared on a battlefield in Africa. From then on, more of their kind are discovered within the human society. Their rarity in appearance means that, for experimental purposes, the government will generously reward anyone who captures one. In the present day, for what a certain high school student expects to be a typical summer holiday, his life is about to turn unexpected." –January 2016

Boku Dake ga Inai Machi (manga): "Satoru has a supernatural ability of being forced to prevent deaths and accidents by being sent back in time before the incident occurred, repeating time until the accident is prevented. He gets involved in an accident that has him framed as a murderer. To save the victim, he sends himself back in time only to find himself as a grade-schooler one month before his classmate, Kayo, went missing. Satoru now embarks on a new quest: to save Kayo and solve the mystery behind her disappearance." –January 2016

Hai to Gensou no Grimgar (manga): "Before Haruhiro had realized what happened, he was surrounded by darkness. Those around him didn't remember anything other than their own name, and when they emerged from the darkness, the world that awaited them seemed like something out of a video game. In order to survive, Haruhiro forms a party with the others, learns fighting skills, and as a soldier in the reserve force, takes his first steps into the world of Grimgar." –January 2016
